

Hello Kindergarten Families,

I wanted to share how we would be doing things for our Valentine's Day party this year. We know the children really want to bring Valentine's, but things will have to be done a little differently due to COVID. Our party will be on February 11th.

We are asking that students do not write their classmates names on the Valentines. They may sign their own name on the Valentine, but they do not address them to their classmates. We keep it blank so that they can just easily "drop" them into their mailbox. This makes it simple, easy, and quick.

The other important information about Valentine's is that they need to have them done and brought to school to quarantine by Feb 5th. This way I can put them away in my cupboard to quarantine so they are 'safe' for them to pass out on February 11th. Any Valentine's that are brought in after Feb 5th will have to be sent home. Make sure to mark your calendars for this. Please remember that Valentine's need to be filled out at home, not at school. They will then bring all their Valentines home to open up at home.

We appreciate your help and flexibility with all of this. Please remember that no visitors are allowed to the party either. If you have any questions, please let me know.

Kristen ♡
